Source: Department of Education, Skills and Employment, caseload data, Aug-21. Caseload total refers to jobactive participants.

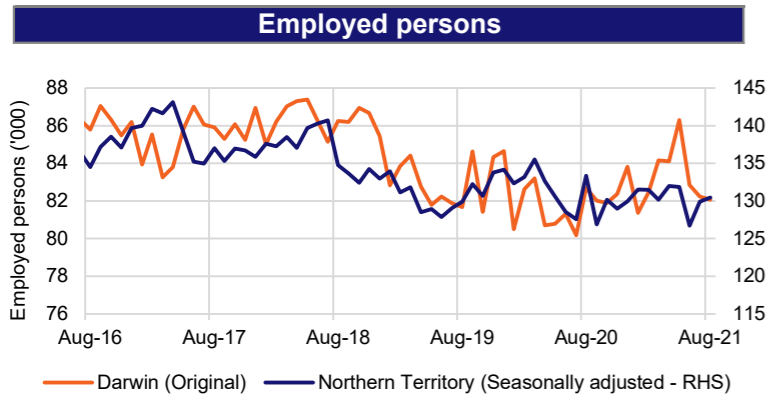

Note: results are imputed between 25 December 2020 and 29 January 2021 due to a break in fieldwork. Source: National Skills Commission, Recruitment Experiences and Outlook Survey, Australia, 27-Aug-21

Note: Data in the labour market summary table are seasonally adjusted estimates, except for the youth unemployment rate which are original estimates. In the table, comparisons are made with March 2020 (pre-COVID-19), rather than an annual comparison, to avoid distorted results given the significant impacts of the pandemic from April 2020. Caseload data includes participants receiving both digital and provider servicing, and excludes those in other programs, such as ParentsNext or Transition to Work (TTW). Duration of unemployment data are based on a participant's time registered in employment services. For employers' future staffing expectations, businesses are asked about staffing numbers over the next three months. For any enquiries related to the data in this dashboard, please contact EmploymentPathwaysAnalysis@skillscommission.gov.au.

Labour market summary table												
	Employment			Unemployment			Unemployment rate		Participation rate		Youth unemployment rate	
	Aug-21 ('000)	Mar-20 ('000)	Change (%)	Aug-21 ('000)	Mar-20 ('000)	Change (%)	Aug-21 (%)	Mar-20 (%)	Aug-21 (%)	Mar-20 (%)	Aug-21 (%)	Mar-20 (%)
Darwin	82.1	83.2	-1.4	3.0	5.6	-46.4	3.5	6.3	74.1	77.9	9.8	11.4
Northern Territory	130.5	135.5	-3.7	4.6	7.4	-37.4	3.4	5.2	70.7	75.6	6.2	13.3
Australia	13,022.6	12,995.5	0.2	617.1	723.2	-14.7	4.5	5.3	65.2	65.9	10.7	11.6

Source: ABS, Labour Force Survey, Aug-21. Employment Region data are original estimates, except for the youth unemployment rate, which is a 12-month average of original estimates. State youth unemployment rates are original estimates. Remaining data are seasonally adjusted.

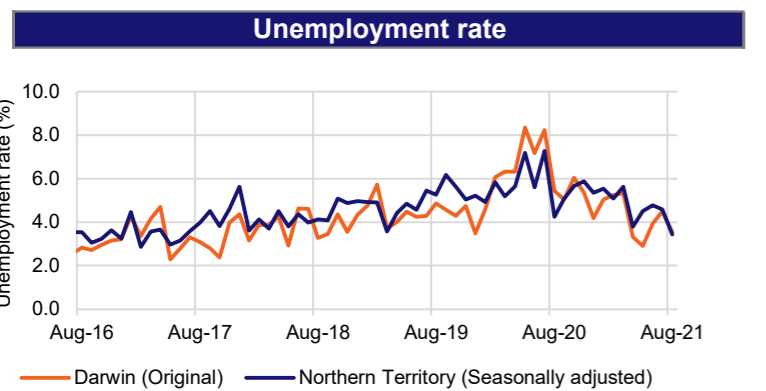

This Labour Market Data Dashboard provides key indicators for the labour market by Employment Region and is updated monthly.

Note: Data are not readily available for all sources by Employment Region. ABS Labour Force Survey data are based on the Darwin SA4. While this is the best fit available, it is only a fair proxy for the Employment Region so caution should be used interpreting results. The Internet Vacancy Index (IVI) uses a unique geographical approach. For this region, the IVI Darwin region has been used. jobactive caseload reports at the Employment Region level and includes participants receiving both digital and provider servicing (it excludes other programs, such as ParentsNext or Transition to Work (TTW)). For caseload data, the Employment Region is based on (1) the location of the provider for jobactive provider serviced participants; (2) where the participant resides for Online Employment Services (OES) participants; (3) the NEST Employment Regions of Adelaide South or Mid North Coast for NEST participants. jobactive caseload by duration registered is based on the participant's time registered in employment services. PWD = people with disability and CALD = culturally and linguistically diverse persons. Caseload data are based on current methodology which has been retrospectively applied to historical jobactive caseload dates. As such, the data may not align with earlier figures. For any enquiries related to the data in this dashboard, please contact EmploymentPathwaysAnalysis@skillscommission.gov.au.
